Poor response for tenants' identity verification process

- City Police Commissioner to hold meeting with MCC seeking assistance to create Ward-level awareness
- Devaraja Police Station (Law and Order, Traffic) to operate from one new building in January, 2023

***City Police Commissioner Ramesh Banoth** (in black suit) along with others inspecting the new Devaraja Police Station building constructed on old Nallappa Thana Police Station (now demolished) premises, adjacent to new Ambedkar Bhavan on Deshika Road.*

Mysuru, Dec. 21 (GA, RK & BCT)- There has been a poor response to 'Suraksha,' a Police system to ascertain and verify the background of tenants who take houses on rent within the city limits. Only a few landlords have submitted applications in response to the Police announcement along with tenant details.

Following the arrest of Mangaluru cooker bomb accused Mohammad Shariq, who had taken a house on rent at Lokanayakanagar near Metagalli, the Mysuru City Police had on Nov. 26 come up with stringent measures — Suraksha — to verify the background of tenants who take houses on rent within the city limits.

The Police brought out two types of forms, 'Suraksha-1' for property owners renting their houses on rent or lease and another 'Suraksha-2' for those running Paying Guest (PG) accommodations, including home stays and any dwelling places given on rent.

City Police Commissioner Ramesh Banoth had announced that it was mandatory for landlords to verify the identity of their tenants before the end of December this year.

The forms to verify the identity of the tenants were made available in all Police Stations and could also be downloaded from the Police Department's website. The intention of the Police was to bring all rented places including houses, apartments, home stays and PG facilities under one umbrella and make the neighbourhood safer.

EDITOR'S BOTTOMLINE

In life, fairy tales are hard to come by, but Lionel Messi may have just had his. One of the great stories of our generation. A tale of a player who had won everything on offer bar one. He was among the pantheon of greats but forced to listen to stage whispers that he had never won the 'big one'. At 35, he would walk into his fifth World Cup but lose to Saudi Arabia in the opener before he and his Argentina teammates grew as the tournament progressed, would navigate the treacherous waters to win the trophy in perhaps the greatest final in the history of the game. One that went down to the final kick. That, he is an Argentine made it all the sweeter.

Through the past month, there were many headlines — of the rightful criticism of Qatar's human rights violations, of the western world's "righteous" stand in the cultural and political war that underlines major tournaments, of Morocco's historic semi-final run, of Asian teams' improving standards, and of the loosening of a 20-year European hold on the trophy. There will be questions about the legacy of a tournament that was expected to accelerate Qatar's move toward modernity. However, for the majority, this will be remembered as the Messi World Cup, just like the 1986 one is remembered as Maradona's. Not because he single-handedly led Argentina to the title like El Diego. Messi needed his teammates. He needed Emiliano Martinez to make a last-ditch save and be his authentic self in penalty shootouts. He needed Angel Di Maria to score in the final, Julian Alvarez to run at defences, Rodrigo De Paul, Enzo Fernandez and Alexis Mac Allister to be his legs so that he could be himself. Yes, Messi finished with six goals and the Golden Ball, yet he didn't drag this team up, he rose because of them. But Argentina, in their first World Cup without Maradona's presence either as player, coach or fan in four decades, found, and truly embraced, their new messiah. — *In Deccan Herald*

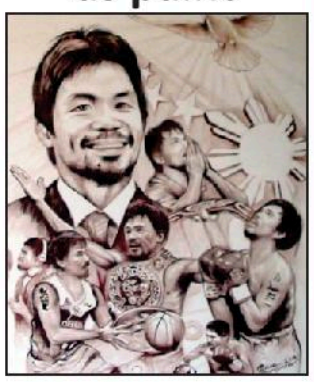
Artist uses his own blood as paint



Mainila: Filipino artist Elito 'Amangpintor' Circa, became a sensation for using his own blood to create canvas paintings that have attracted both praise and criticism over the years.

Born in a poor family, Elito Circa's family couldn't afford to buy improper art supplies, so he experimented with a variety of unusual mediums as a child, including plums and tomatoes. One day he accidentally scraped his hand and discovered that blood would mark his artistic career. He quickly realised that the blood not only made his paintings more durable, as it was harder to erase from the canvas, but that it also made his artworks his own in a way that he had never imagined before.

This football player is only 12 years old

Fort Worth: It is hard to believe the fact that Jeremiah Johnson, a running back from Fort Worth in Texas is only 12 years old despite his mature appearance. Jeremiah Johnson started making news headlines around the country last week, after photos of him holding the trophy for '12U Division 1 Most Valuable Player' went viral on social media. Johnson's team, the Dallas Dragons Elite Academy (DEA), had just won the 2022 Youth National Championships in Miami and he was crowned as the Most Valuable Player. But while his photos got thousands of likes and congratulatory comments, what most people seemed to be focused on was Jeremiah's age. They just couldn't believe that he was only 12 years old and to be fair, the boy did look incredibly mature for his age.

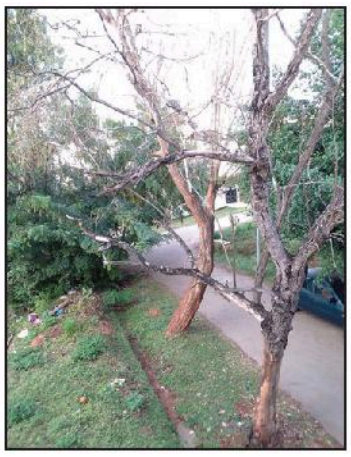
Remove dead trees



Sir,

Two road side trees are dead naturally for more than a year on 4th Cross, 9th Main, Vijayanagar 2nd Stage. In spite of repeated complaints, even in writing, Forest Department has not taken any action for removal of dead trees.

It is a public hazard as the trees may fall on road at any time, since many vehicles and pedestrians use this road throughout the day.

We once again request the Forest Department to wakeup from its slumber and take action to remove these dead trees immediately. We have approached the local Corporator but it seems he is busy with other things and doesn't have time to solve ordinary citizens' woes.

Ramdas asks MCC to drop proposed hike in domestic water and sewerage tariff

Ramdas

Mysuru, Dec. 21 (DM)- Opposing the Mysuru City Corporation's (MCC) proposal to hike domestic water and sewerage tariff, K.R. MLA S.A. Ramdas has written to the MCC asking it to drop the plan.

In a letter to the Mayor, Ramdas said it has come to his knowledge that MCC has planned the hike to raise its revenues as the Government may not continue funding of MCC's power bills out of SFC grant. But as the Government has no plans of suspending SFC (Electricity) funding, the MCC's proposal on tariff hike seems illogical.

The MLA has also highlighted several shortcomings in the drinking water supply system in areas coming under all the 65 MCC wards of the city, which are as under:

It has been discovered that water bill is raised for only 140 MLD, while the actual supply is 335 MLD, which means that 195 MLD has been unaccounted for. This should be rectified.

Although the MCC is issuing water bills to 1.8 lakh domestic users, only one-third payment of bills (about 60,000) is being recorded, which means that 1.2 lakh consumers are at default on payment of bills. The MCC should ensure that it receives payment for all the water bills issued to consumers, which helps in revenue enhancement.

It has also been found that there are 40,000 unauthorised water connections in the city and they should be identified and brought under the water tax net.

The MCC has planned to hike sewerage fee from the existing 30 percent to 40 percent. The MCC should maintain an Escrow Account for collecting water tax and sewerage tax from major non-residential and commercial buildings. The MCC can use the revenue thus earned for taking up new works.

MLA Ramdas, in his letter, has highlighted that the MCC should consider his suggestions and take appropriate measures underlined by him for plugging loopholes and shortcomings in the water tax and drainage (sewerage) tax collection system and thus rake in additional revenues. He has also suggested MCC to drop its proposal for hiking domestic water and sewerage tax.

Solid Waste Management Plant opens at Nagawala

Mysuru, Dec. 21 (RK&BCT)- A Solid Waste Management Plant was inaugurated at Nagawala Gram Panchayat in Yelwal hobli in the outskirts of Mysuru yesterday by Chamundeshwari MLA G.T. Devegowda in the presence of Gram Panchayat President C. Narendra.

It is an initiative of Hasiru Dala, a non-profit organisation that works for waste pickers and informal waste collectors in selected cities of Karnataka by making their work visible and economically sustainable. Bengaluru-based Ashraya Hastha Trust joined hands with Hasiru Dala in the initiative.

Urban Local Bodies (ULBs) manage the Municipal solid waste in the urban areas, similarly waste management should also happen in the rural areas. To bring into practice a proper and sustainable waste management system in rural Karnataka, Hasiru Dala, in association with Ashraya Hastha Trust, Bengaluru, has initiated the 'Sustainable Solid Waste Management' project at Nagawala Gram Panchayat as a pilot project with the support of the Gram Panchayat of Nagawala.

Speaking on the occasion, Devegowda said that the initiative has been launched for effective waste segregation and disposal as followed in the Mysuru City Corporation (MCC). The Plant at Nagawala is a pilot project and will be gradually extended to the other Gram Panchayats, he said.

To begin with, Hasiru Dala has planned all the necessary behavioural change activities for the village residents. In this, the Solid Waste Management Plant shall play a very essential role to manage the waste within the Gram Panchayat. For this, the Nagawala Gram Panchayat has recently constructed a new Waste Management Plant and the Plant is operational now.

Hasiru Dala believes that livelihood generation and social security improvement are two sides of a coin that need equal attention. "We strive to integrate waste pickers into the formal solid waste management landscape through policy advocacy, organising waste pickers and skill upgradation," said Director of Hasiru Dala R. Anil Kumar.

At present Hasiru Dala manages a few Dry Waste Collection Centres (DWCC) and one Zero Waste Management facility of MCC along with being engaged in raising Solid Waste Management awareness among the citizens.

Director of Ashraya Hastha Trust N.K.A. Sharma, Hasiru Dala Executive Director Nalini Shekhar, Taluk Panchayat Executive Officer H.D. Girish, Nodal Officer Prem Kumar and others were present.

Ensure elimination of child labour: DC

Mysuru, Dec. 21 (BCT)- Deputy Commissioner (DC) Dr. K.V. Rajendra told the officials of the Department of Labour to compulsorily hold meetings of Task Forces once in three months to prevent child labour.

At a recent meeting held at his office to discuss the measures taken to prevent child labour in the district, the DC reviewed the child protection mechanism.

All the stakeholders were instructed to strengthen the child protection mechanism and the DC advised all officials not to wait for directions but make a strong move to evolve a dependable mechanism to protect the vulnerable children.

All stakeholders assured the DC to work in a coordinated manner to strengthen the child protection mechanism. The DC asked officers to work at community level to prevent child abuse and discrimination. He stressed on the need to work to eliminate child labour and child marriages in the district.

Officials from various other departments who have been appointed to the Task Forces under Section 17 of the Child Protection Act must also take up measures for educating the public on preventing child labour, he added.

Children also perform dangerous tasks in garment production, stone quarrying and brick-making. Hazardous work prohibitions do not include all occupations in which children work for long periods in unsafe and unhealthy environments, he noted and asked the officers to tighten vigil.

Book cases against employers

"Go ahead and book cases against those employing children in garages, small workshops, kirana stores, small factories and manufacturing and supply units. Identify the children working in these places and efforts must be made to bring them to the mainstream and get them enrolled in schools to continue their education," the DC said.

Rules say that one cannot employ children under 14 years of age in any job. "Those in the 15-18 age group are prohibited from working in hazardous professions. Officials must conduct surprise raids and book cases against those employing them. After the cases are booked, the children must be produced before the District Child Welfare Committee to be rehabilitated," he added.

Asking the officers to ensure that the trade licences of shops, business establishments and trades are renewed only after they give an undertaking stating that they have not employed children in their units, Dr. Rajendra said that Town Panchayats, City Municipal Councils, Mysuru City Corporation and Gram Panchayats must ensure that the licences are renewed only when they provide the undertaking.

He asked the Police to provide security whenever raids are carried out for rescuing children engaged in child labour.

AIDSO holds protest opposing hike in Engineering College fees

Mysuru, Dec. 21 (RKB&DM)- Strongly opposing the steep fee hike in Government Engineering Colleges, members of Mysuru District Unit of AIDSO (All India Democratic Students Organisation) staged a demonstration in front of the Deputy Commissioner's Office here yesterday.

Claiming that the State Government had hiked the Engineering College fee by Rs.5,000 last year, the protestors said this year, the fee has been hiked by Rs.10,000, thus making it a hike of Rs.15,000 in just two years, which is very much detrimental to the interests of poor students who want to pursue Engineering in Government Colleges.

Alleging that the fee hike is an anti-student move, which also reflects the Government's open commercialisation of engineering education, they demanded the Government to immediately withdraw the fee hike and revoke its policy of increasing fees every academic year.

AIDSO office-bearers Subhash, Swathi, Chandrakala, students Preetham, Pankaj, Ronald and others were present.

Panel moots three names for Mysore Varsity VC post

Two from UoM — Prof. D.S. Guru, Prof. G. Venkatesh Kumar and Dr. Sharath Ananthamurthy from Hyderabad

Prof. Guru *Prof. Venkatesh* *Dr. Sharath*

Mysuru, Dec.21 (DM)- The search panel formed by the State Government for the appointment of a new Vice-Chancellor for University of Mysore (UoM) has recommended three names for the coveted post.

The panel headed by Prof. M.S. Shivakumar, a former VC of Bengaluru's CMR University, is learnt to have recommended the names of Prof. D.S. Guru, Head of the Department of Computer Science, UoM, Prof. G. Venkatesh Kumar, Head of the Department of Psychology, UoM and Dr. Sharath Ananthamurthy, a Physics faculty of the University of Hyderabad, who had previously served at Bangalore University.

It may be mentioned here that the name of Dr. Sharath Ananthamurthy had been shortlisted to head the UoM in 2017 but missed out. Besides his academic achievements, Prof. Sharath is the son of *Jnanpith* awardee U.R. Ananthamurthy. Sharath had taught in the UoM for a couple of years from 1996.

Poor response for tenants' identity verification process

(Continued from page 1)

As part of the process, landlords had to fill the verification form along with photocopy of any one of the tenants' identities like Aadhaar card, passport, ration card, driving licence or voter identity card and submit the same to the jurisdictional Police Station.

Admitting that there has been a poor response to Suraksha, the City Top Cop told *Star of Mysore* that most of the landlords and house owners have not bothered to fill the applications and submit the same. "This is because there is a lack of awareness and there seems to be a confusion in the minds of residents. Many people call me for information and I have been convincing them that it is a novel scheme to prevent crimes," Ramesh said.

The Police Department has plans to involve the Mysuru City Corporation (MCC) in this plan and awareness will be created at Ward levels on the benefits of the plan. "I have already spoken to the MCC Commissioner in this regard and will hold meetings with Mysore Airport officers, hotel and lodge owners and PG accommodation owners to fully implement Suraksha," he said.

MCC officials can verify the particulars submitted by the landlords. This apart, owners of hotels and lodges should also compulsorily verify the identity of the guests booking accommodation before handing over rooms, he said.

While the ground floor will be meant for Devaraja Police Law and Order wing, the first floor will be occupied by the Traffic wing. Prelude to Kannada Sahitya Sammelana at Haveri next month

'Kannada Jyothi' gets grand reception

Mysuru, Dec. 21 (SBD&DM)- The 'Kannada Jyothi,' which was launched from Sirsi in Uttara Kannada district as a prelude to Kannada Sahitya Sammelana to be held at Haveri next month, was accorded a grand reception in city on Monday evening.

The 'Kannada Jyothi,' which arrived from Mandya district after covering a distance of over 2,500 kms across the State, was received with grandeur at Kote Anjaneyaswamy Temple, Palace North Gate, in the presence of Mayor Shivakumar, Deputy Mayor Dr. G. Roopa, MLA L. Nagendra, Deputy Commissioner Dr. K.V. Rajendra, Tahsildar Girish, Kannada and Culture Assistant Director Dr. M.D. Sudarshan, District Kannada Sahitya Parishat President Maddikere Gopal, former President M. Chandrashekar, Rajya Hindulida Vargagala Jagruta Vedike President K.S. Shivaramu, Kannada activist Mugur Nanjundaswamy and other officials and leaders.

The 'Jyothi' was received with a host of folk troupes. The dignitaries offered floral tributes to the two idols of Goddess Bhuvaneshwari Devi, installed in attractive 'Mantapas' atop the specially decorated bus carrying the 'Jyothi.' The bus has been lent by KSRTC and is so modified to make it look like a tableau.

More than 20 artistes from across the State have put in a lot of efforts for creating this specially designed 'Kannada Jyothi'.

The 'Kannada Jyothi,' which was flagged off from Bhuvaneshwari Temple at Siddapur near Sirsi on Dec. 1, has travelled through Dharwad, Belagavi, Bagalkot, Vijayapura, Kalaburagi, Yadgir, Koppal, Vijayanagar, Ballari, Chitradurga, Tumakuru, Chikkaballapur, Bengaluru, Ramanagara and Mandya districts, covering a distance of over 2,500 kms.

The 'Jyothi,' after covering the rest of the districts, will reach Haveri on Jan. 5, where the 3-day 86th Kannada Sahitya Sammelana will take place from Jan. 6 to 8.

Arera, one of the two drivers (the other is Doddamani) of the KSRTC bus which is carrying the 'Jyothi,' said that the 'Jyothi' will travel across the State and has thus far travelled a distance of over 2,500 kms.

The 'Jyothi' will reach Haveri on Jan. 5, a day ahead of the grand Kannada Literary Festival, he added.

Veeresh, the Mechanic who is part of the 'Jyothi' carrying bus, said that the 'Jyothi' is being accorded with a grand reception wherever it has travelled to. We had food recipes of different hue in all districts, he said adding that 10 artistes are an integral part of the 'Jyothi.'

WORD OF THE DAY

Celerity

Pronunciation: suh-LAIR-uh-tee.
Meaning: Celerity is a formal word that means "swiftness of motion or action."
Origin: Celerity hasn't acted with much expressive celerity since its entry into English in the 1400s: it refers now as it did centuries ago to swiftness of motion or action. Its source (by way of Middle French) is the Latin adjective celer ("swift" or "speedy"), a word from which we also get accelerate, and there is some evidence of a trace of equine celerity in its deeper history: celer may go back to an Indo-European word that is the ultimate source of a Greek word meaning "swift horse" or "charger."
Example: "[Researchers] employed ultrafast laser pulses, hitting electrons with light for as little as a trillionth of a second. Electrons in solids tend to bump into atoms instead of moving uninterrupted, so being able to control them with such celerity was crucial for the team..." —Karmela Padavic-Callaghan

PHRASE OF THE DAY

To catch a crab

Meaning: To catch a crab is a term used in the rowing community. It means, either... 1. Catching an oar in the water when moving the oar blade backwards. 2. Missing the water on one's forward pull stroke. 3. Leaving the oar under the water too long on one's forward pull stroke. The consequence of all three would be, at a minimum, that the rower would get out of sequence with other rowers. More severe crab catching might result in the rower falling backwards in the boat or, in extreme circumstances, falling out of it.
Origin: Before we can say much about the origin we need to look closer at meanings. All three meanings are in use by rowers but clearly they don't correspond and, as phrase must have originated with one meaning, only one can claim to be the origin. The expression is a strange one. Why bring crabs into boating blunders? The two analogies that might have been made when the phrase was coined are: The oar was caught hold of by a crab when it was in water. The oarsman resembles a crab when falling backwards waving arms and legs in the air. Both of these crab image notions are plausible. The speculative amongst us might even like to add the idea that, when falling in the water, the oarsmen was diving to catch crabs, but maybe that's a step too far.

You cannot teach a crab to walk straight. **—Aristophanes**
